

DESCRIPTION

Mains Voltage (240v) must only be installed by a licensed electrician and meet all local regulatory requirements. Ensure mains voltage is switched off.

- Remove ceiling mount plate from canopy
- Install ceiling mount plate (any direction) using suitable fixings, install cable suspension at 1060mm spacing.
- Install cable gripper into ceiling mount, adjust height and trim excess cable
- Adjust canopy suspension height, make electrical connection to LED driver.
- Attach canopy to ceiling mount plate.
- Mount glass shade to body using supplied screws and rubber washers, adjust as needed.
